OCTOBER CAR CARE & SAFETY TO-DOS

Fall is in full swing, which means cooler weather, shorter days, and Halloween is here! Here are a few quick October reminders to keep you, your car, and your community safe:

- **Check your tires** – Cooler temps can lower tire pressure. Make sure yours are properly inflated for safety and better fuel efficiency. Also, inspect the tread to make sure they're ready for the rainy weather ahead—good traction is essential for safe driving.
- **Test your battery** – Cold mornings are coming! A quick battery check now can save you from being stranded later.
- **Inspect your lights & wipers** – With darker evenings and more rain, good visibility is key. Replace worn wipers and burned-out bulbs.
- **Top off fluids** – Oil, coolant, and windshield washer fluid should all be ready for the season.
- **Schedule fall maintenance** – A seasonal checkup can catch small issues before they become big (and expensive) ones.

And a special reminder as Halloween approaches: watch for pets, trick-or-treaters, and excited kids darting across the street! Please drive slowly in neighborhoods and stay alert. Stay safe, enjoy the season, and let us know if we can help get your car ready for fall!

Diagnosed, ordered parts and repaired by second day. Mike was kind enough to sharpen his pencil a bit on the quote. Much appreciated!
