# DRIVE INTO SPRING WITH CONFIDENCE—A&A AUTOMOTIVE HAS YOU COVERED!

## SPRING INTO CAR CARE: ESSENTIAL MAINTENANCE TIPS FOR MARCH

As winter fades and spring blooms, it's the perfect time to give your car some **much-needed attention**. Seasonal changes can take a toll on your vehicle, and regular maintenance is key to **ensuring safety, performance, and longevity**. At **A&A Automotive Sausalito**, we're here to help you keep your car running smoothly all season long!

### Spring Auto Maintenance Checklist:

**Check Your Tires** – Fluctuating temperatures can affect tire pressure. Make sure your tires are properly inflated and have adequate tread for those spring showers.

**Inspect Your Brakes** – Wet roads require reliable brakes. If you hear squeaking or feel vibrations, have them checked immediately.

**Replace Wipers & Check Fluids** – Spring rains mean clear visibility is a must. Swap out old wiper blades and top off fluids like windshield washer, coolant, and brake fluid.

**Check Your Battery** – Winter weather can weaken your battery. If it's over three years old, have it tested to avoid unexpected breakdowns.

**Get an Oil Change** – Fresh oil keeps your engine running smoothly and efficiently, especially as temperatures rise.

**Clean & Protect** – Road salt and winter grime can cause corrosion. A thorough wash, wax, and interior cleaning will keep your car looking great and protected.

Spring is a season of renewal—we are here to make sure your vehicle is ready for the road ahead!
