A&A IS READY TO KEEP YOU ROLLING INTO SPRING WITH CONFIDENCE!

Early Spring Car Care Tips

As the seasons change, it's a great time to make sure your vehicle is ready for spring driving. A few simple checks now can help prevent bigger issues down the road:

Tires & Alignment: Winter wear and potholes can throw off alignment and tire tread. A quick check helps improve handling and extend tire life.

Brakes: Moisture and temperature changes can impact braking performance. Spring is a smart time for a brake inspection.

Battery Health: Cooler months can weaken your battery—testing it now helps avoid unexpected no-starts.

Fluids & Cooling System: Topping off fluids and checking for leaks keeps your engine running smoothly as temperatures rise.

Wipers & Visibility: Spring rain is coming—fresh wiper blades and properly functioning lights make a big difference. If you've been putting off any recommended maintenance, early spring is the perfect time to take care of it and drive with confidence.

Supporting Mental Health Advocates of Marin

MENTAL HEALTH ADVOCATES
of MARIN

At A&A Automotive, we believe strong communities start with caring for one another. That's why we're proud to support Mental Health Advocates of Marin, an organization dedicated to amplifying the voices of those with lived mental health experience and advocating for compassion, understanding, and accountability within the system.

Mental Health Advocates of Marin provides a welcoming, supportive environment where individuals facing mental health or substance use challenges can feel seen, supported, and empowered.

Through their Enterprise Resource Center, a drop-in center open seven days a week, they offer peer support groups, educational programs, creative outlets, activities, and community connection for all who walk through their doors.

Their mission is simple and powerful: in community, we recover—and we're honored to stand alongside them in supporting that belief.
