

FAMILY RUN AND PROUDLY SERVING SAUSALITO AND SURROUNDING AREAS FOR OVER 40 YEARS!

AS SUMMER WINDS DOWN, A&A IS HERE TO KEEP YOU SAFE AND ON THE ROAD!

KEEP COOL FOR THE TAIL-END OF SUMMER

Sausalito summers are beautiful, but that coastal sunshine can put extra strain on your vehicle's cooling system. If your radiator or coolant system isn't working properly, your engine can quickly overheat—leading to costly damage and inconvenient breakdowns.

Though summer is winding down, make sure you finish out the season comfortable. Watch for these warning signs that your cooling system may need attention:

- Rising temperature gauge, especially during stop-and-go traffic
- Steam coming from under the hood
- Low coolant levels or visible leaks
- A sweet, syrupy smell (often a sign of leaking antifreeze)
- Engine running rough or losing power when it gets hot

To keep your car running cool and smooth no matter what time of year! If you think you may need your vehicle's cooling system looked at, give us a call!

PARK SMART: TIPS FOR VISITING THE MARIN HEADLANDS OR GOLDEN GATE REC AREA

August is the perfect time to explore some of the Bay Area's most iconic scenic drives—like the winding roads through the Marin Headlands or the breathtaking overlooks along Conzelman Road. Whether you're chasing sunsets or foggy photo ops, it's a great time to hit the road.

Before you go, here are a few parking and vehicle care tips to keep in mind:

- Use your parking brake on inclines—even if you're driving an automatic
- Turn your wheels toward the curb (downhill) or away (uphill) to prevent roll
- Crack your windows slightly to help reduce cabin heat
- Use a windshield sunshade to protect your dash and electronics
- Never leave valuables visible, especially in remote parking areas

If you're due for a check-up before your next coastal cruise, swing by A & A for a quick inspection or fluid top-off. We'll help keep your vehicle adventure-ready!

Drive safe and enjoy the views!
